financial statements as they show all revenues and expenses for the financial year and are designed to establish the financial position in the form of a balance sheet at 31 December.

The annual accounts are drawn up in accordance with Article 76 of the Financial Regulation of the European Environment Agency adopted by the Management Board on 26 March 2003.

As from 1 January 2005, the Agency has amended its general accounting system and procedures to comply with the requirements in the Financial Regulation regarding accrual accounting. In essence this means that from that date onwards, accounting events are recorded when they arise, rather than when the cash is received or paid. These events are classified as assets, liabilities, revenue or expenses.

According to Article 82 of the Financial Regulation, the Agency's accounting officer shall send to the Commission's accounting officer by no later than 1 March of the following year its provisional accounts, together with the report on budgetary and financial management during the year. The Executive Director shall send the final accounts, together with the opinion of the management board, to the Commission's accounting officer, the Court of Auditors, the European Parliament and the Council, by 1 July of the following year at the latest.

The final annual accounts will be published in the Official Journal of the European Communities together with the statement of assurance given by the Court of Auditors by 31 October of the following year in accordance with Article 83 of the Financial Regulation.

3.6 Notes to the Financial statements

3.6.1 Notes to the Balance sheet

1. Fixed assets

Items acquired whose purchase price or production cost is EUR 420 or more, with a period of use greater than one year, and which are not consumables are recorded in the fixed assets accounts valued at their acquisition price. These thresholds also apply to software that are internally developed, acquired from a third party, or covered by a license.

Intangible fixed assets consist of computer software.

After a recommendation from the Court of Auditors, the Agency will from 2008 onwards capitalize material costs for fitting-out the leaseheld premises. Hence, tangible fixed assets are now divided in four categories:

- Equipment
- Computer hardware
- Furniture
- Building fitting-out

The fixed assets as of 31 December 2008 are set out in the following table:

	<i>EUR</i>				
	Computer Software	Equipment	Computer Hardware	Furniture	Building Fitting-out

2. Long term receivables

The amount booked as long term receivables, EUR 523,168.99, refers to the deposit paid for the premises rented at Kongens Nytorv in Copenhagen.

3. Short term pre-financing

At the end of the year 2008 a total amount of EUR 172,324.10 was outstanding in respect of pre-financing given to contractors.

4. Current receivables

Current receivables, EUR 612,736.29 refer to recovery orders which are outstanding at the end of the year. Of the total amount, 99 % refers to recoverable VAT.

5. Deferrals and accruals (asset)

Of the outgoing balance, EUR 2,739,380.33, the main part, EUR 2,688,818.88, refers to accrued revenues in respect of grant agreements for which pre-financing is outstanding at the end of the year.

6. Short term receivables with consolidated EC entities

The outgoing balance of EUR 1,887,150.00 includes two separate amounts; EUR 1,407,150.00 is the part of the contribution for 2008 from Turkey which was not paid to the Agency during the financial year, and 480,000.00 which is an outstanding recovery order regarding the CLC-GMES grant. Both amounts are administrated by DG Environment, hence presented under Short term receivables with consolidated EC entities.

7. Cash and cash equivalent

At the end of the year 2008, the Agency held bank accounts in Danish kroner and Euro, in Denmark and Belgium.

3.6.3 Accounting principles, rules and methods

Article 78 of the Financial Regulation sets out the accounting principles to be applied in drawing up the financial statements:

- going concern basis;
- prudence;
- consistent accounting methods;
- comparability of information;
- materiality;
- no netting;
- reality over appearance;
- accrual-based accounting.

Transactions and balances

Foreign currency transactions are converted into euro using the exchange rates prevailing at the dates of the transactions.

Year-end balances of monetary assets and liabilities denominated in foreign currencies are converted into euro on the basis of the exchange rates applying on 31 December.

Foreign exchange gains and losses resulting from the settlement of foreign currency transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the economic outturn account.

Fixed assets

Intangible fixed assets are valued at their acquisition price converted into euro at the rate applying when they were purchased, less depreciation and impairment. The exception is assets acquired free of charge that are valued at their market value. See depreciation rates below.

Tangible fixed assets are stated at historical cost. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Agency and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the economic outturn account during the financial period in which they are incurred.

Depreciation is calculated using the straight line method to allocate depreciation cost to the assets' residual values over their estimated useful lives, as follows:

Type of asset	Straight line depreciation rate
Intangible assets	25%
Fitting out of leasehold premises	20 %
Plant, machinery and equipment	12,5% to 25%
Furniture	10%
Computer hardware	25%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, on a regular basis. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the economic outturn account.

Assets that have an indefinite useful life are not subject to amortization and are tested regularly for impairment. Assets that are subject to amortization are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized as the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

Pre-financing amounts

Pre-financing is a payment intended to provide the beneficiary with a cash advance, i.e. a float. It may be split into a number of payments over a period defined in the particular pre-financing agreement. The float or advance is repaid or used for the purpose for which it was provided during the period defined in the agreement. If the beneficiary does not incur eligible expenditures, the beneficiary has the obligation to return the pre-financing advance to the Agency. The amount of the pre-financing is reduced (wholly or partially) by the acceptance of eligible costs and amounts returned.

At year-end outstanding pre-financing amounts are valued at the original amount(s) paid less: amounts returned, eligible amounts cleared, estimated eligible amounts not yet cleared at year-end, and value reductions.

Interest on pre-financing is recognised as it is earned in accordance with the provisions of the relevant agreement.

Receivables

Receivables are carried at original invoice amount less write-down for impairment. A write-down for impairment of receivables is established when there is objective evidence that the Agency will not be able to collect all amounts due according to the original terms of receivables.

Cash & cash equivalents

Cash and cash equivalents include bank accounts and cash in hand.

Use of estimates

In accordance with generally accepted accounting principles, the financial statements necessarily include amounts based on estimates and assumptions by management. Significant estimates include, but are not limited to, accrued income and charges, contingent assets and liabilities, and degree of impairment of fixed assets. Actual results could differ from those estimates. Changes in estimates are reflected in the period in which they become known.

3.7 Contingent liabilities and off the balance sheet items

Per 31 December 2008, the Agency had agreements with several contractors/suppliers amounting to 2,7 MEUR. These agreements relate mainly to operational projects and are covered by budgetary commitments in 2008. The Agency also has rent agreements with Nordea Ejendomsinvestering A/S. The rent cost for the remaining rent period until September 2010 amounts to 2,6 MEUR.

The Agency is currently part in an ongoing legal procedure (T-331/06). The financial risk is limited to legal costs which at this point are considered to be immaterial.

4.1.2 Budgetary principals

The establishment and implementation of the budget of the European Environment Agency are governed by the following basic principles:

(a) unity and budget accuracy;

all expenditure and revenue must be incorporated in a single budget document, must be booked on a budget line and expenditure must not exceed authorised appropriations;

(b) universality:

this principle comprises two rules:

- the rule of non-assignment, meaning that budget revenue must not be earmarked for specific items of expenditure (total revenue must cover total expenditure);

- the gross budget rule, meaning that revenue and expenditure are entered in full in the budget without any adjustment against each other;

(c) annuality:

the appropriations entered are authorised for a single year and must therefore be used during that year;

(d) equilibrium:

the revenue and expenditure shown in the budget must be in balance (estimated revenue must equal payment appropriations);

(e) specification:

each appropriation is assigned to a specific purpose and a specific objective;

(f) unit of account:

the budget is drawn up and implemented in euro and the accounts are presented in euro;

(g) sound financial management:

budget appropriations are used in accordance with the principle of sound financial management, namely in accordance with the principles of economy, efficiency and effectiveness;

(h) transparency:

the budget is established and implemented and the accounts presented in compliance with the principle of transparency - the budget and amending budgets are published in the Official Journal of the European Communities.
