1 Certification

The annual accounts of the European Environment Agency have been prepared in accordance with Title VII of the Financial Regulation of the Agency, as well as the accounting rules and methods adopted by the Commission's accounting officer.

I hereby certify that based on the information provided by the authorising officer, I have reasonable assurance that the accounts present a true and fair view of the financial position of the Agency in all material aspects.

Copenhagen, 25 May 2010

Anne-Li Hartmann-FitzGerald
Accounting Officer

2 Presentation of the annual accounts

The annual accounts of the European Environment Agency include the financial statements, the report on implementation of the budget, and the report on budget and financial management during the year.

The financial statements comprise the balance sheet and the economic outturn account at 31 December, the cash-flow table and the statement of change in capital.

The objectives of financial statements are to provide information about the financial position, performance and cash flows of an entity that is useful to a wide range of users. For a public sector entity such as the European Environment Agency, the objectives are more specifically to provide information useful for decision making, and to demonstrate the accountability of the entity for the resources entrusted to it.

If they are to present a true and fair view, financial statements must not only supply relevant information to describe the nature and range of the activities, explain how it is financed and supply definitive information on its operations, but also do so in a clear and comprehensible manner which allows comparisons between financial years. It is with these goals in mind that the present document has been drawn up.

The accounting system of the European Environment Agency comprises budget accounts and general accounts. These accounts are kept in euro on the basis of the calendar year. The budget accounts give a detailed picture of the implementation of the budget. They are based on the modified cash accounting principle.¹ The general accounts allow for the preparation of the

¹ This differs from cash-based accounting because of elements such as carryovers.

financial statements as they show all revenues and expenses for the financial year and are designed to establish the financial position in the form of a balance sheet at 31 December.

The annual accounts are drawn up in accordance with Article 76 of the Financial Regulation of the European Environment Agency adopted by the Management Board on 19 December 2008.

As from 1 January 2005, the Agency has amended its general accounting system and procedures to comply with the requirements in the Financial Regulation regarding accrual accounting. In essence this means that from that date onwards, accounting events are recorded when they arise, rather than when the cash is received or paid. These events are classified as assets, liabilities, revenue or expenses.

According to Article 82 of the Financial Regulation, the Agency's accounting officer shall send to the Commission's accounting officer by no later than 1 March of the following year its provisional accounts, together with the report on budgetary and financial management during the year. The Executive Director shall send the final accounts, together with the opinion of the management board, to the Commission's accounting officer, the Court of Auditors, the European Parliament and the Council, by 1 July of the following year at the latest.

The final annual accounts will be published together with the statement of assurance given by the Court of Auditors by 31 October of the following year.

3.5 Notes to the Financial statements

3.5.1 Notes to the Balance sheet

1. Fixed assets

Items acquired whose purchase price or production cost is EUR 420 or more, with a period of use greater than one year, and which are not consumables are recorded in the fixed assets accounts valued at their acquisition price. These thresholds also apply to software that are internally developed, acquired from a third party, or covered by a license.

Intangible fixed assets consist of computer software.

From 2008 onwards, the Agency will capitalize material costs for fitting-out the rented premises. Hence, tangible fixed assets are now divided in four categories:

- Equipment
- Computer hardware
- Furniture
- Building fitting-out

The fixed assets as of 31 December 2009 are set out in the following table:

	EUR			
	Computer Software	Equipment	Computer Hardware	Furniture

2. Long term receivables

The amount booked as long term receivables, EUR 696,139.01, refers to the deposit paid for the premises rented at Kongens Nytorv in Copenhagen. The major part of the increase is due to the renting of new office space at Kongens Nytorv 8.

3. Short term pre-financing

At the end of the year 2009 a total amount of EUR 38,074.00 was outstanding in respect of pre-financing given to sub-contractors.

4. Current receivables

Current receivables, EUR 745,901.10 refer to recovery orders which are outstanding at the end of the year. Of the total amount, 80 % refers to recoverable VAT.

5. Deferrals and accruals (asset)

Of the outgoing balance, EUR 3,991,048.31, the main part, EUR 3,535,504.63, refers to accrued revenues in respect of grant agreements for which pre-financing is outstanding at the end of the year.

6. Short term receivables with consolidated EC entities

The outgoing balance of EUR 1,599,999.47 refers to an outstanding recovery order regarding the pre-financing for the GISC grant administrated by DG Enterprise.

7. Cash and cash equivalent

At the end of the year 2009, the Agency held bank accounts in Danish kroner and Euro, in Denmark and Belgium.

Bank	2009	2008	EUR
Fortis Bank (EUR)	3,511,783.33	420,359.40	
Fortis Bank (DKK)	23,545.01	274,317.61

Imprest account (DKK)	9,008.76	9,666.62	
Sum	7,572,486.99	5,652,580.48	

The imprest account is set up in order to enable cash payments of daily subsistence and travel costs for meeting participants from non-EEA member countries for meetings taking place on the Agency's premises, and in the case of meetings financed by the CARDS programme, meetings held in the West Balkan countries. In 2009, this account was also used exceptionally to pay for advances of daily allowances.

8. Provision for charges

The amount EUR 99,334.12 is a provision for outstanding salary adjustment.²

9. Deferrals and accruals (liability)

The total amount of 4,882,472.51 EUR consists of two parts; EUR 4,683,920.09 which is an estimate by the authorising officers of the cost incurred for services and goods received in the year 2009 but not paid for by the end of the year, and EUR 198,552.42 which is a provision for the cost of annual leave incurred but not taken during the year.

10. Pre-financing received from consolidated EC entities

The outstanding amount refers to pre-financing received in relation to grant agreements from consolidated entities, EUR 4,349,999.47, for a specification see note 5 above, and EUR 851,672.48 which is the positive budget outturn for 2009 to be reimbursed to the European Commission, see point 4.1 below.

3.5.2 Notes to the Economic outturn account

11. Operating revenues

The operating revenues of the year 2009 amounts to EUR 39,994,602.71 and can be specified as follows:

Revenue source	<i>EUR</i>	
	2009	2008
European Commission subsidy	33,708,327.52	31,672,000.00

Exchange rate gains	7,752.55	10,988.87
Sum	39,994,602.71	39,447,875.02

² The Council decided in December 2009 to increase the salaries of officials and other servants of the European Union by 1.85% from 1 July 2009 onwards. According to the Commission, this decision is not compliant with Staff Regulations which stipulates that the increase should have been 3.7%. The Commission has lodged an action for annulment against the decision in the European Court of Justice. It is considered probable that the refused 1.85 % salary adjustment will, in the end, have to be paid to the staff, hence the provision in the accounts.

12. Operating expenses

The operating expenses of the year 2009 amounts to EUR 15,870,218.56 and can be specified as follows:

3.5.3 Accounting principles, rules and methods

Article 78 of the Financial Regulation sets out the accounting principles to be applied in drawing up the financial statements:

- going concern basis;
- prudence;
- consistent accounting methods;
- comparability of information;
- materiality;
- no netting;
- reality over appearance;
- accrual-based accounting.

Transactions and balances

Foreign currency transactions are converted into euro using the exchange rates prevailing at the dates of the transactions.

Year-end balances of monetary assets and liabilities denominated in foreign currencies are converted into euro on the basis of the exchange rates applying on 31 December.

Foreign exchange gains and losses resulting from the settlement of foreign currency transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the economic outturn account.

Fixed assets

Intangible fixed assets are valued at their acquisition price converted into euro at the rate applying when they were purchased, less depreciation and impairment. The exception is assets acquired free of charge that are valued at their market value. See depreciation rates below.

Tangible fixed assets are stated at historical cost. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Agency and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the economic outturn account during the financial period in which they are incurred.

Depreciation is calculated using the straight line method to allocate depreciation cost to the assets' residual values over their estimated useful lives, as follows:

Type of asset	Straight line depreciation rate
Intangible assets	25%
Fitting out of leasehold premises	20 %
Plant, machinery and equipment	12,5% to 25%
Furniture	10%
Computer hardware	25%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, on a regular basis. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the economic outturn account.

Assets that have an indefinite useful life are not subject to amortization and are tested regularly for impairment. Assets that are subject to amortization are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized as the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

Pre-financing amounts

Pre-financing is a payment intended to provide the beneficiary with a cash advance, i.e. a float. It may be split into a number of payments over a period defined in the particular pre-financing agreement. The float or advance is repaid or used for the purpose for which it was provided during the period defined in the agreement. If the beneficiary does not incur eligible expenditures, the beneficiary has the obligation to return the pre-financing advance to the Agency. The amount of the pre-financing is reduced (wholly or partially) by the acceptance of eligible costs and amounts returned.

At year-end outstanding pre-financing amounts are valued at the original amount(s) paid less: amounts returned, eligible amounts cleared, estimated eligible amounts not yet cleared at year-end, and value reductions. Interest on pre-financing is recognised as it is earned in accordance with the provisions of the relevant agreement.

Receivables

Receivables are carried at original invoice amount less write-down for impairment. A write-down for impairment of receivables is established when there is objective evidence that the Agency will not be able to collect all amounts due according to the original terms of receivables.

Cash & cash equivalents

Cash and cash equivalents include bank accounts and cash in hand.

Use of estimates

In accordance with generally accepted accounting principles, the financial statements necessarily include amounts based on estimates and assumptions by management. Significant estimates include, but are not limited to, accrued income and charges, contingent assets and liabilities, and degree of impairment of fixed assets. Actual results could differ from those estimates. Changes in estimates are reflected in the period in which they become known.

3.6 Contingent liabilities and off the balance sheet items

Per 31 December 2009, the Agency had agreements with several contractors/suppliers amounting to 2,1 MEUR. These agreements relate mainly to operational projects and are covered by budgetary commitments in 2009.

The Agency also has rent contracts that provide that the contracts may not be terminated before a certain period; 12 months in the case of Kongens Nytorv 6, and 6 years in the case of Kongens Nytorv 8. The contingent liability in respect of the rent contracts as per 31 December 2009, amounts to at least 3,2 MEUR (approx. 1,3 MEUR for Kongens Nytorv 6, and 1,9 MEUR for Kongens Nytorv 8).

The Agency is currently part in an ongoing legal procedure (T-331/06). The financial risk is limited to legal costs which at this point are considered to be immaterial.

4.1.2 Budgetary principles

The establishment and implementation of the budget of the European Environment Agency are governed by the following basic principles:

- (a) unity and budget accuracy;
all expenditure and revenue must be incorporated in a single budget document, must be booked on a budget line and expenditure must not exceed authorised appropriations;
- (b) universality:
this principle comprises two rules:
 - the rule of non-assignment, meaning that budget revenue must not be earmarked for specific items of expenditure (total revenue must cover total expenditure);
 - the gross budget rule, meaning that revenue and expenditure are entered in full in the budget without any adjustment against each other;
- (c) annuality:
the appropriations entered are authorised for a single year and must therefore be used during that year;
- (d) equilibrium:
the revenue and expenditure shown in the budget must be in balance (estimated revenue must equal payment appropriations);
- (e) specification:
each appropriation is assigned to a specific purpose and a specific objective;
- (f) unit of account:
the budget is drawn up and implemented in euro and the accounts are presented in euro;
- (g) sound financial management:
budget appropriations are used in accordance with the principle of sound financial management, namely in accordance with the principles of economy, efficiency and effectiveness;
- (h) transparency:
the budget is established and implemented and the accounts presented in compliance with the principle of transparency - the budget and amending budgets are published in the Official Journal of the European Communities.
