

Kristīne Kazerovska

Kristīne Kazerovska is Deputy director of the Environmental Protection Department of the Ministry of Environmental Protection and Regional Development in Latvia. The Department covers a range of topics to secure environmental quality including water resource management, waste management, pollution prevention, chemicals management, radiation safety among others. She participates in global environmental management issues, particularly on the Rotterdam Convention on prior informed consent and Minamata Convention on mercury.

She has an M.Sc. in chemistry from the University of Latvia. She began working at the Ministry of Environmental Protection and Regional Development (MoEPRD) in Latvia in 2018 starting with chemicals management topic. Prior to being employed at the MoEPRD, she was head of Public Health Surveillance and Control Department at the Health Inspection.
