Louis Meuleman is a Visiting Professor of Public Governance at the University of Leuven, Belgium, and a long-standing expert, researcher and author on sustainability governance and science-policy relations, combining academic and practical experience, with work experience at UN, EU, national and subnational level. He is affiliated with three universities. He is currently vice-chair of the high-level UN expert group CEPA which advises UN member countries and UN bodies on SDG-related systemic issues of public administration and governance. His passion is about making science and policy work together, about better understanding the long-term challenges, the drivers of change and linkages between them and the SDGs. Louis has a PhD in public administration which is cited in more than 500 academic publications, and an MSc in environmental biology.

Public service **[or better: *Relevant work experience* ?]**

Member of the European Environment Agency (EEA) Scientific Committee; director of a national science-policy advisory council (RMNO) in the Netherlands; head of unit in national and subnational environment departments in the Netherlands; coordinator Environmental Implementation Review at the European Commission; member of the editorial board of the journal *Impact Assessment and Project Appraisal*; author of several books about (sustainability) governance; co-founder of the think tank Public Strategy for Sustainable Development (PS4SD), Brussels, Belgium.
