

10 November 2009

**Clarification No 1 for open call for tenders:**

**Framework contract for support on public and private cost and investment assessments**

**Reference number: EEA/IEA/09/010**

**Question:**

A question has been received as to the meaning of the words "*It also includes in situ capacities for GMES (Global Monitoring for Environment and Security)*" under section 3 of the tender specifications.

**Answer:**

This reference means assessing capacities for in-situ facilities of GMES as regards cost/cost structure and benefit analyses and assessments of implementation of legislation with respect to GMES (Global Monitoring of Environment and Security, the European capacity for Earth observation) in the context of Impact Assessments.

Information on GMES in-situ facilities can be obtained from [www.gmes.info](http://www.gmes.info)
