

Remark for the Installation of the EUROSION database clchanges

Land Cover Changes

* Although it is said in D2.3.3 and in D2.3.8.2 that you have to relate LCCH to LCEULCCDAT, this is not true. LCCH table is not needed and part 3 and 4 of Land Cover Changes in D2.3.8.2 should be read as following:

3. Relating INFO table LCXXCHI100kv1 and INFO table LCEULCCDAT with ArcMap

4. Relating INFO table LCXXCHI100kv1H and INFO table LCEULCCDL2AT with ArcMap

* There's an error in document D2.3.8.2 concerning relating the LCxxCHI100kv1 dataset with table LCEULCCDAT.

The following text:

3. Relating INFO table LCCH and INFO table LCEULCCDAT with ArcMap

Select coverage **LCXXCHI100kv1** and open the [Relate window from the coverage](#).

Complete the Relate window by selecting

- Attribute **LCCD** of **LCXXCHI100kv1** coverage.
- Table **LCEULCCDAT**
- Attribute **LCCD** of INFO table **LCEULCCDAT**
- Define the name of the relation as "**LCHXXtoL3Description**".

[Complete the relate windows](#).

4. Relating INFO table LCCH and INFO table LCEULCCDL2AT with ArcMap

Select coverage **LCXXCHI100kv1** and open the [Relate window from the coverage](#).

Complete the Relate window by selecting

- Attribute **LCCDL2** of **LCXXCHI100kv1** coverage
- Table **LCEULCCDL2AT**
- Attribute **LCCDL2** of INFO table **LCEULCCDL2AT**
- Define the name of the relation as "**LCHXXtoL2Description**".

[Complete the relate windows](#).

Must be replaced by:

3. Relating INFO table LCxxCHI100kv1 and INFO table LCEULCCDAT with ArcMap

Select coverage **LCXXCHI100kv1** and open the [Relate window from the coverage](#).

Complete the Relate window by selecting

- Attribute **LCCHCDV2** of **LCXXCHI100kv1** coverage.
- Table **LCEULCCDAT**
- Attribute **LCCD** of INFO table **LCEULCCDAT**

- Define the name of the relation as "*LCHXXtoL3Description*".
[Complete the relate windows.](#)

4. Relating INFO table LCxxCHI100kv1 and INFO table LCEULCCDL2AT with ArcMap

Select coverage ***LCXXCHI100kv1*** and open the [Relate window from the coverage](#).

Complete the Relate window by selecting:

- Attribute ***LCCHCDL2V2*** of ***LCXXCHI100kv1*** coverage
- Table ***LCEULCCDL2AT***
- Attribute ***LCCDL2*** of INFO table ***LCEULCCDL2AT***
- Define the name of the relation as "*LCHXXtoL2Description*".
[Complete the relate windows.](#)
