**Notes:**

<sup>(a)</sup> BAU: 'business as usual' projection; WM: 'with measures' projection; WAM: 'with additional measures' projection.

<sup>(b)</sup> National emission ceilings for SO<sub>2</sub>, NO<sub>x</sub>, NMVOC and NH<sub>3</sub> to be attained by 2010 according to Annex I of the NEC Directive.  
[http://ec.europa.eu/environment/air/pdf/nec\\_eu\\_27.pdf](http://ec.europa.eu/environment/air/pdf/nec_eu_27.pdf)

<sup>(c)</sup> In the first instance, emission ceilings are compared against reported 'with measures' (WM) projections. WM projections take into account currently implemented and adopted policies and measures. Where countries have instead reported 'business as usual' (BAU) projections, it is assumed for comparison against the ceilings that these are equivalent to a WM projection.

<sup>(d)</sup> Luxembourg has not provided NECD projections. As no projections data were submitted by Hungary, Italy and Portugal in the 2007 reporting round, use was made of NEC Directive projections reported in earlier years.
