SEIS Pilot Bathing Water

The image displays two overlapping screenshots of the 'Eye on Earth' website's 'Water Watch' section. The top screenshot shows a regional map of the Flanders region in Belgium, with various bathing sites marked by colored icons representing water quality ratings. The bottom screenshot provides a detailed view of 'Amager Strand' in Denmark, featuring a satellite map, a 'LIVE WEBCAM' of the beach, and a 'PHOTOS' gallery. The interface includes navigation tools like zoom and pan, and a sidebar with search and filter options.

SHOW THIS ON THE MAP

- EEA water quality rating
- User rating

To view and rate the quality of bathing water at a bathing site:

- Zoom in to your selected site on the map or type the beach into the search bar
- If the "cluster" symbol is displayed, zoom in further until the individual location is represented
- Left click on the icon for your location to display historical data, and open the basic rating system in the pop-up
- To view detail on other bathing sites, simply left click on other icons
- Zoom out to go to the original view
