

Group 10 First Order Draft Additional Note

Discussion with the Agriculture Expert Panel indicated that **Chapter B1010** is subject to on-going revision by the Expert Panels and so it would be neither a good use of Project Team resources or helpful to the TFEIP to modify them further under this contract.

Particulate matter is dealt with in two separate stand-alone chapters, one of which '**PM emissions in Animal Husbandry**' was completed in September 2005. The second particulate matter chapter 'PM emissions from Arable Agriculture' is currently being created.

Therefore no changes have been made to any of the chapters in Group 10 for the First Order Draft.
