Others												

No.	Datasource	Description
1	RES-LEGAL	Feed-in tariff - The principality of Liechtenstein promotes the use of solar energy for the generation of electricity by granting a feed-in tariff. The amount of tariff paid by the grid operator differs and depends on the installed capacity of the installation. In addition to the support given through the feed-in tariff, the principality of Liechtenstein is also promoting the actual construction of the installation through an additional support mechanism. The tariff is eligible for a period of 10 years after commissioning of the installation.
2	RES-LEGAL	In addition to the support given through the feed-in tariff, the principality of Liechtenstein is also promoting the actual construction of the installation through an additional support mechanism. The tariff is eligible for a period of 10 years after commissioning of the installation.
