Ref. Your letter dated May 6,  
2004

Dear Roberto Acosta

May 24, 2004

Thank for the draft Status report and the Consistency check report 2004 for Denmark.

We enclose a note where we

- give comments to the Status report
- explain the corrections which we have worked out as a result of the findings in the Consistency check report

The corrections affect 1990-2002 and imply that we use the possibility mentioned in your letter to re-submit the CRF-files for 1990-2002 in full. We are further encouraged to do so as mentioned in the Consistency report in the light of facilitating the review process. We underline, that the corrections made are on data that do not imply any changes in emissions nor in IEF-factors for Denmark as compared to the April 2004-submission. The re-submission is performed electronically in a mail with this letter and the note mentioned.

Further, we have found some errors in the emissions reported for the Faroe Islands in Annex 6.1 and 6.2 of the NIR. Corrected versions of these Annexes are enclosed.

Yours sincerely  
Erik Lyck
