

Note on the delivery of Natura 2000 electronic data-sets via Reportnet

How to deliver

All deliveries shall be provided via the Reportnet Central Data Repository (CDR), which is maintained by the European Environment Agency (EEA). The person(s) nominated to DG Environment as the data suppliers responsible for reporting will be given Eionet accounts with a password. These people will have upload rights to the CDR. It is not possible to deliver data to CDR without upload rights.

The delivery process for data suppliers is very simple.

You need to log in with your EIONET account and password in CDR. The hyperlinks to the relevant CDR folder for each country are listed in the table below.

You should then carry out the following steps:

- Create the delivery envelope and give the envelope the appropriate metadata
- Activate the task
- Upload the files to be delivered from your system to CDR. You should deliver both your database and your GIS files together with any other relevant information in the same envelope. You can use the “Restrict from public view” option if there are any files which should not be available to the public.
- Release the envelope
- Finish the envelope: this will close the envelope and indicate to DG Environment that your electronic submission is complete. An automatic acknowledgement of the delivery will be generated in CDR at this stage (see example in this document). This receipt must be used as an annex to the formal notification of delivery sent to DG Environment by the Permanent Representative, only then your electronic data will be considered as official and will be validated.

Help

If you need any assistance during the delivery process, do not hesitate to contact EIONET helpdesk at helpdesk@eionet.europa.eu or by telephone (details at <http://nmc.eionet.europa.eu/helpdesk.html>)

Table

Country		Natura 2000 deliveries in CDR
Name	ISO	Hyperlink to national folder
Austria	AT	http://cdr.eionet.europa.eu/at/eu/n2000
Belgium	BE	http://cdr.eionet.europa.eu/be/eu/n2000
