Evaluation in a future governance system for climate and energy after 2020

5th EEEN Forum – Low Carbon Track - Session 1

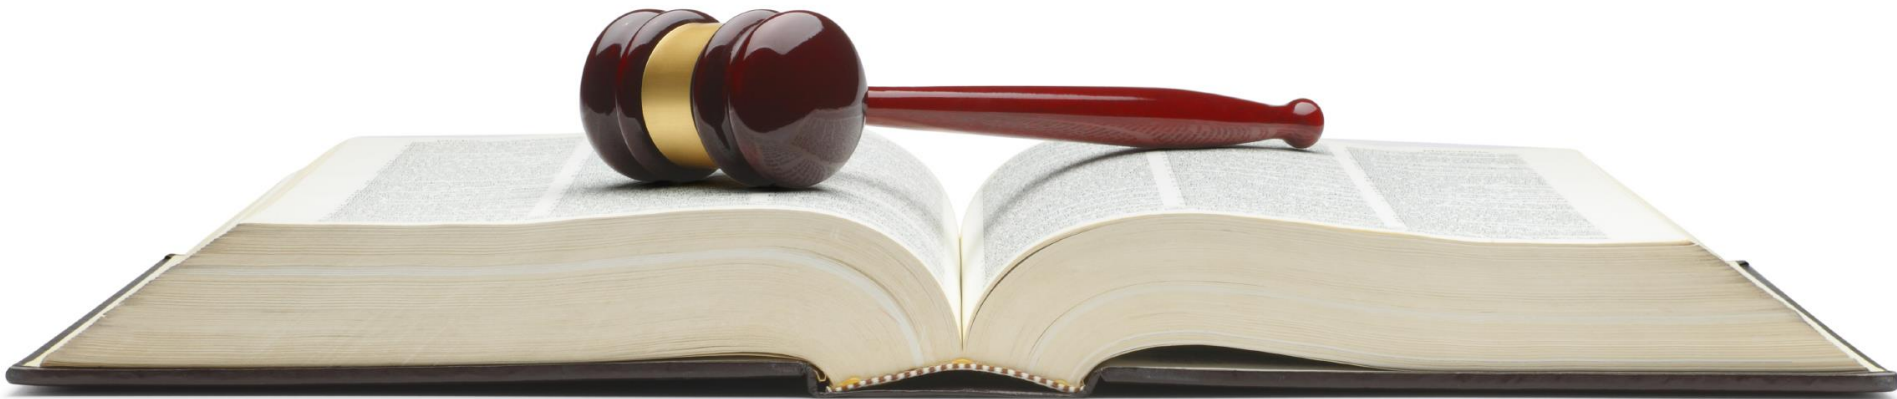

Copenhagen, 15 September 2016

#EnergyUnion

11.30 – 13.00

Low carbon track | Evaluation in a future governance system for climate & energy after 2020
| Conference room

Chaired by Matthias Duwe | Ecologic Institute

Oliver Sartor | Institut du développement durable et des relations internationales

Using indicators for ex ante target-setting and ex post evaluation in the EU new climate and energy governance system

Eike Velten | Ecologic Institute

The interface between Member States and the European Commission for evaluating policy and setting priorities: could an “Energy-Union”-Semester approach better institutionalise EU energy and climate policy evaluation?

Discussants:

Koen Rademaekers | Managing Director of Trinomics BV

Thomas Brunhes | European Commission, Directorate-General for Climate Action
