

# IRELAND

## STATE OF THE ENVIRONMENT REPORTING

● United Nations milestones

● European Union milestones

● EEA milestones

● Milestones Ireland

## State of the environment tools and building blocks

### TOPICS COVERED

#### Themes

- Air Quality and Transboundary Air Emissions
- Climate Change
- Nature
- Inland and Marine Waters
- Waste
- Land and Soil
- Environment, Health and Wellbeing

#### Sectors

- Economy
- Transport
- Energy
- Agriculture

#### Systems and Sustainability transitions

- Economy
- Transport
- Energy
- Agriculture

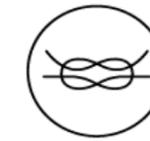

Environmental media (air, water & land)

Emerging themes

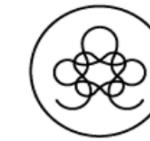

**Data from**

- Environmental monitoring – Graphs and Data
- Thematic Infographics and Factsheets
- Environmental Research
- State of Environment Report and video
- Dedicated data sources and analysis

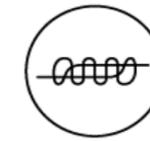

**Indicators showing environmental**

- Driving forces
- Pressures
- States
- Impacts
- Responses

**Scoreboards giving insight in**

- Current environmental trends
- Policy progress

**Assessments providing knowledge on**

- State and past trends
- Trends, causes and outlooks
- Key challenges and responses

#### Effective indicators and evidence base

including the monitoring of emerging themes, sustainability transitions, and long term systemic challenges but also incorporating new data sources – see EPA - Ireland's Environment Web Resource

#### Open and accessible knowledge

with an emphasis on digital information and usage of diverse channels, interactive data visualisation storytelling and provision of open data and models – see EPA – Ireland's Environment Web Resource – My Local Environment / Get Informed / Get Involved and the SoE eBook

#### Innovative sustainability assessments

that address the challenges and prospects of long term sustainability transitions, broaden stakeholder participation, indicate barriers and levers for participatory solutions, and link knowledge to action – see EPA – Ireland's Environment Web Resource / Research and The Story of Your Stuff

<http://www.thestoryofyourstuff.ie/>

## Advances in national state of the environment reporting

Details on advances in state of the environment reporting are available at the EPA Ireland's Environment Web Resource: <http://www.epa.ie/irelandsenvironment/>
